## PHILIPPINE EXPEDITION

Troops Ordered At and the Transports at San Francisco—Sampson's Squadron Reported Suffering From an Incipient Famine—Insurgents Who Watched the Bombardment by Sampson Say That Three Hundred Spanish Troops Were Killed—Chickamauga News.

Washington, June 14.—The first army of invasion to Cuba is now well on its way, 32 transport steamships bearing over 13,000 officers and men, conveyed by battleships, cruisers, gunboats and auxiliary craft, 16 in number, have actually sailed from Key West. The authorities made the announcement for reason that the time for secrecy has past, as the scoutboats had made sure that the path was clear before it and that no possible menace could come from the Spanish ships or troops, even should the enemy know that our forces were now advancing against them. With the expedition off, officials here feel that there will be a period of comparative inaction for a few days. By Thursday at the latest the transports will be off Santiago and a large American army will make its landing on Cuban soil.

Aside from the men and officers making up the expedition, the boats carried a vast quantity of supplies, ammunition and war equipments necessary to maintain an organization of this size for at least 60 days.

The landing of these troops will be a laborious process, and will take a full day or more. The point of landing has been so chosen that there is little danger of an interruption from the Spanish forces, but should they attempt to make trouble, Admiral Sampson's ships will insure ample protection until the troops can care for themselves.

The news of the attack by the Spaniards upon the United States marines at Guantanamo bay Saturday night has not been confirmed by official advice. However, there is no disposition to question the accuracy of the press report and the news has had a rather sobering effect upon the element that has insisted upon rushing troops forward regardless of their unpreparedness.

Saturday night's action shows that the Spanish are not afraid to charge boldly upon United States troops and the prospects of a bushwhacking warfare disclosed by the Spanish movements are anything but agreeable to the persons who have been hoping for a short campaign. A good deal of surprise is expressed at the failure of that report to mention any substantial aid received from the insurgents by the United States marines camped on crest hill.

Without any discouragement of the fighting ability of the marines, who appear to have acquitted themselves with the greatest credit so far as concern their bravery and steadiness under fire, the question has been raised whether western soldiers, trained in Indian fighting, would not be of more service in a Cuban jungle campaign. Nothing so severely taxes the courage and endurance of troops as to be shot at from cover by an unseen foe and only troops trained in our latest skirmish drill can render effective service in such attacks.

### OFF SANTIAGO.

Doings of the Ships in Admiral Sampson's Squadron.

Off Santiago de Cuba, June 8, via Kingston, Jamaica, June 14.—The Yankee and the St. Louis cut the cable at Guantanamo, 60 miles east of Santiago de Cuba yesterday afternoon, and Cuba is thus believed to be finally shut off from communication with the outer world.

The Marblehead fired at a small Spanish gunboat and she returned the fire, the old-fashioned forts joining in the engagement. The gunboat retreated into the harbor and the fort was silenced by the Marblehead. It is not believed the Spanish gunboat was struck, as the range was too great. The Marblehead and the Yankee returned to the blockade at midnight.

The steam launches, which now form a picket line to guard against a torpedo-boat attack, reported yesterday that the Spaniards were apparently attempting to repair the batteries damaged by the bombardment of Monday. Admiral Sampson thereupon said he believed that half, if not more, of the enemy's guns had been dismantled.

While the work of arming and feeding the insurgents is pushed vigorously the Spaniards in Santiago are reported suffering from an incipient famine, and a Cuban officer off shore yesterday asserted that the guerrillas were deserting in force to the insurgents.

Yesterday Lieutenant Commander DeLahunt, with the gunboat Swanee, armed 3,000 Cubans with rifles, ammunition and machetes. Today he landed 5,000 rifles, 300,000 rounds of ammunition, a large consignment of machetes, a quantity of medicine and several tons of bread and bacon.

The insurgents say that they watched Monday's bombardment from the hills at the rear of Santiago, that as many as 300 Spaniards were killed and several hundred dismounted. Terrible execution was wrought by the 12-inch shells of the Texas.

If their statement can be relied upon, the Spanish garrison at Santiago is on half rations and the town itself is even much worse off, the military authorities refusing to sell citizens provisions at any price. The insurgents predict that a famine will cause the speedy capitulation of Santiago.

### CHICKAMAUGA.

Regimental and Battalion Drills the Order of the Day.

Chickamauga National Military Camp, Ga., June 14.—Regimental and battalion drills yesterday were the order of the day. Fourteenth New York was inspected by Inspector Colonel Slocum. The men were found to be in good physical condition and are well equipped with uniforms, but their guns were found to be very defective, and 900 of the supply on hand were condemned as unfit for use in actual service. A requisition for a full supply of new guns has been made.

Captain Rockwell, chief of the ordnance department, expects consignments of arms to begin arriving today and as shipments are to be made now to this point he thinks there will be no further delay and that the troops will be all equipped within a week or 10 days at the latest.

Privates Sharpe, Sixteenth Pennsylvania; Ames, Third Illinois; and Barrett of the Fourteenth New York, injured by being thrown from the top of a passenger coach, are improving and no serious results are apprehended in consequence of the accident.

### GOING ABOARD TRANSPORTS.

Second Expedition Going to the Aid of Dewey Ordered Aboard Ships.

San Francisco, June 14.—The most important order issued from army headquarters yesterday was one notifying Major General Otis that the steamers to comprise the second fleet of transports to go to the Philippines was practically ready for the reception of troops. Troops to the number of about 4,000, comprising the Tenth Pennsylvania, the First Colorado, of the First Nebraska and two battalions of regulars from the Eighteenth and Twenty-third infantry, a detachment from the engineer corps and the two battalions of Utah light infantry began to raze their camps, load their tents and baggage into wagons, don their heavy marching gear and form into columns for the march to the waiting transports.

All day a stream of wagons was conveying camp equipment and baggage to the different steamers and this work was completed today.

STUDEBAKER'S REGIMENT.

First Illinois Merged With the One Hundred and Fifty-seventh Indiana.

Port Tampa, Fla., June 14.—The deluging tropical storm of last night left the men of Colonel Studebaker's regiment very damp. Excellent precautions taken by the boys in ditching the tents left them in better shape, however, than other camps.

The project of sending officers home to recruit was countermanded and in order to strengthen the brigade to a war footing the First Illinois was merged with this regiment. A squad of men unfit for service is to be sent home in a few days.

### Caused a Boom in Tea.

New York, June 14.—The duty of 10 cents a pound on all imports of tea, under the war revenue bill, has caused a boom in the tea market and prices have advanced very rapidly during the last week. The improvement in some grades has been as much as 7 cents a pound, while the average gain in values has been about 6 cents from the last auction sale, which was held a week ago last Thursday.

### Angustis Conferences With the German Consul.

London, June 14.—The Singapore correspondent of The Times says: "Letters received here from Manila, dated May 26, say that the prolonged conferences between the German consul and Captain General Angusti were exciting attention in Manila and had led to the belief that Germany had designs on the Sulu archipelago."

### Astor Battles Leaves for the Philippines.

New York, June 14.—The Astor battery of mountain artillery broke camp yesterday and last night left for San Francisco, enroute to the Philippines.

## EXPOSITION BOYCOTT

Southerners Will Not Go to the Paris Show.

Louisville, Ky., June 14.—The Paris exposition will fall flat as far as patronage from the south is concerned. Not less than 3,000 people had planned to attend it from various southern states and Indiana. Twenty exposition clubs have met and, after passing resolutions condemning France for its hostility to the country in the war with Spain, have disbanded and canceled all arrangements for the trip to Paris.

### Will Not Go to Paris.

New Albany, Ind., June 14.—A proposed trip to the Paris exposition in 1900, which was to have been made by a club of gentlemen, has been abandoned on account of the unfriendly attitude of the French people toward the United States in the present controversy with Spain. The club was organized two years ago.

## RENEWED FIGHTING

Spaniards Make a Second Attack on Huntington's Marines.

## THE DONS HAD TO FLY

When the Marblehead Threw a Few Shells at Them.

## LIEUT. NEVILLE'S PICKETS

Who Had Been Reported Unaccounted For Returned to Camp After Eighteen Hours' Fighting—Colonel Huntington Moves His Camp—Enemy's Hillside Battery Silenced.

United States Camp, Guantanamo, June 12, via Kingston, June 14.—After the 13-hours' skirmish between the United States marines, under Colonel R. W. Huntington, and the Spanish guerrillas and regulars Saturday night, it was expected that the fighting would be renewed. The Marblehead had landed reinforcements. This morning the firing was again renewed by the Spaniards, who appeared off the camp on the edge of a small island, about a mile to the northeast. It was promptly returned by 13 rifles and a 3-inch field gun, and in a short time all signs of the enemy had disappeared. Colonel Huntington then sent to the landing for a second 3-inch gun, which was dragged up the hill and placed in position at the summit. The skirmish lines thrown around the camp kept up a popping all the morning, but with not much result to show for it. Meantime the Marblehead left the harbor and threw a few shells into the woods.

To the great delight of marines in camp, Lieutenants Neville and Shaw, with 90 men of Company D, returned in good shape, but much exhausted by 18 hours of picket duty. One man, Sergeant Smith of Company K, had been shot through the abdomen and instantly killed. For most of the day and night Lieutenants Neville and Shaw had been surrounded by a much superior force, but men and officers behaved splendidly and, although the firing of the Spaniards was constant and heavy, Lieutenants Neville's detachment held its own, inflicting much more damage than it sustained.

At least five Spaniards are known to have been killed and, as Lieutenant Neville's men kept up a steady fire throughout the night and the enemy was not at a great distance, it is believed that the Spanish casualties were heavy. The battleship Texas arrived yesterday morning and sent ashore 40 marines and two automatic Colt guns as reinforcements.

The Marblehead also sent an additional small detachment. Private Bartholomew McGowan of Company D will lose his hand, which was shattered by a bullet. Amputation will be necessary. The Marblehead's pilot, who was shot through the leg while guiding the cruiser out of the harbor this morning, holds the rank of colonel in the Cuban service.

Later the Spaniards opened fire from two guns placed on the west side of the harbor. The shots flew wild. The Texas, Yankee and torpedo-boat Porter, which were lying in the harbor, opened fire, and in a short time silenced the Spanish guns. The latter fired only once after the ships opened fire. There were no casualties on the American side.

It was decided by Colonel Huntington today to abandon the position first occupied as a camp, as there were no signs of reinforcements of troops, and it was known that a force of Spaniards six times more numerous than the marine battalion was in the vicinity. Therefore, the crest of the hill which the troops held last night was given up to batteries and rifle pits and the tents were pitched on the side of the hill near the harbor, which is protected by the warships.

### DAYS NUMBERED.

Sagasta Government Will Soon Cease to Exist.

London, June 14.—The Paris correspondent of The Morning Post says: "I learn from a trustworthy source that the days of the Sagasta cabinet are numbered. It is believed the cabinet is aware the torpedo-boat destroyer Terror has been lost, and despite denials, it is rumored that there is further bad news from Cuba. Senor Silveira, leader of the dissident Conservatives, is regarded as the coming man. The Carlists are enrolling adherents and starting developments are expected."

### Major General Keifer.

Washington, June 14.—Secretary Alger has decided to assign Major General J. Warren Keifer of Ohio to a command with Major General Lee of the Seventh corps. The latter is now stationed at Jacksonville.

### Dewey's Ships Gone to Meet Them.

London, June 14.—According to a dispatch from Madrid to The Financial News, three Spanish ironclads from Madagascars waters have arrived in sight of Manila, and Admiral Dewey's ships have gone to meet them.

## LEITER'S FALL.

Young Napoleon of Chicago Market Meets With Reverses.

Chicago, June 14.—Excitement and wild rumors prevailed in the Chicago wheat pit yesterday. A reverse that looks like a Waterloo has come to the "Young Napoleon of Finance," Joseph Leiter.

At first there was a wild tumble of prices on the board, July wheat selling at 11 cents from Saturday's close while September lost 4 1/2 and December 3 1/2 cents, but all made a little recovery before the close.

It was given out that Leiter had ordered his deals all closed and that the selling rush was the result of the execution of this order, accompanied as it was, by a flood of rumors concerning the stability of the big bull movement, which for months has been the important factor in board of trade dealings. One of these rumors was that Leiter had been deserted by some of his associates in the campaign.

In the meantime Leiter's wheat was being tumbled overboard and prices had become demoralized. Later in the day Leiter made no attempt to conceal the fact that he had sold out all his holdings in futures—probably 6,000,000 or 8,000,000 bushels here. It came out that he had transferred most of his trades in futures to other well known houses and that they were pretty well protected by margins, so that whatever losses there were would fall upon Leiter. His cash wheat, one report said, was transferred to Armour, but a later story was that it would be "trusted" and handled in such a way as to prevent the slump which would be inevitable if it were all thrown on the market at once. Before the final close the panic partially subsided and July reacted 4 cents.

It is estimated that during the day 8,000,000 to 10,000,000 bushels of Leiter wheat, optional and visible, were sold to the account of the "Young Napoleon." This is supposed to have consisted chiefly of options in September, July and June wheat, stored in Minneapolis, St. Paul, Duluth and Chicago.

Later it was reported that L. Z. Leiter, when asked by his son for more money, had refused to be drawn further to the wheat deal, and thus compelled the latter to let go a large line of his holdings in order to satisfy his warehouse creditors.

Mr. Leiter's friends insist that he has not made an assignment, but it was admitted last night that the Leiter interests had been "trusted."

None of the principals in the Leiter crisis are willing to discuss the causes which led to his abdication, and the most plausible explanation that can be offered at this time is, therefore, circumstantial and speculative.

### LOST NO MONEY

State Treasurer Campbell Denies a Report Sent Out From Washington.

Columbus, O., June 14.—State Treasurer S. B. Campbell has returned from his paying off trip among the Ohio regiments. He pronounces as absolutely false the statement sent out from Washington to the effect that he lost \$456 in paying off at Camp Alger by giving somebody a \$500 package of bills for a \$50 package. He says he is short nothing and that such a mistake could not have been made by him, because he paid by checks to company commanders and handled no money.

### Venezuelan Revolution Ended.

Washington, June 14.—Information has reached the state department that the revolution which has prevailed in Venezuela for the past six months has ended by the defeat and capture of Hernandez, its leader. The people are celebrating the termination of the revolution by public demonstrations. As a result President Andrade remains more firmly than ever seated in the executive office in Caracas.

AS REPORTED TO MADRID.

American Ships Suffered Quite Severely In the Last Santiago Fight.

Madrid, June 14.—In the chamber of deputies yesterday the minister of the interior, Senor Capdepon, replying to questions on the subject, said that according to the semi-official dispatches during the last fight at Santiago de Cuba, "a Spanish shell burst on the deck of the Massachusetts, dismounting a gun, killing and wounding a number of men and seriously injuring the vessel, while the New York and several other vessels were compelled to withdraw in a badly damaged condition. In addition, three of the American ships were sent back to the repairing yards."

## SECOND DEGREE

Two of a Gang of Nine Thieving Tramps Indicted For Murder.

Tiffin, O., June 14.—Fred Burns, the tramp, who shot Bruce Johnson, another tramp, last week, has been indicted by the grand jury for murder in the second degree. Developments in the case show that a gang of nine tramps have been committing various crimes over the country. A 17-year-old boy "peached" on them, and the same young man stated to an officer that the plans had been laid by the men to break into a Tiffin bank and rob a wealthy widow in this city. Dynamite is said to be secreted near the place where the party was arrested, and efforts are being made to locate it.

## KANSAS LYNCHING

Great Bend, Kan., June 14.—In the public square, fronting on the principal business street of this place, a murderer was lynched last evening by a mob of probably 500 persons. It is estimated that at least 1,000 men of Great Bend's population of 2,500 persons witnessed the tragedy. The victim was John Becker, about 40 years old, who on April 8 killed Myrtle Huffmeister, the 16-year-old daughter of William Huffmeister, a farmer living midway between Great Bend and Ellinwood, who had rejected his profession of love.

ADMIRAL Dewey pays a splendid tribute to his men in his official report when he says:

"I beg to state to the department that I doubt if any commander-in-chief was ever served by more loyal, efficient and gallant captains than those of the squadron now under my command."

The American people understand too, that such service is given by American, only to commanders who have shown themselves worthy of such loyalty.

DISPATCHES in this morning's papers indicate that Joseph Leiter, the young wheat king, has met his Waterloo. His course, if this be true, is only at other illustration of the folly of speculations in margins. Leiter put up millions of dollars and stood by his deal with nerve and when conditions favored he won. But fascinated as he was with his game he failed to note the changed conditions which the prospect of a large harvest made and he lost as every other great speculator has done who undertook to manipulate the market in the face of opposing natural conditions.

### Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### TWO FIRES.

One Last Night and One Today.

At 10 o'clock last night fire was discovered in R. M. Hensley's store on Blish street. The alarm was sounded but before the fire department reached the scene the entire building was in flames and the structure with the contents consisting of a small lot of groceries was soon in ashes. Mr. Hensley says he left his lamp lighted in the building and went down town and on his return home the alarm was sounded. He thinks the fire may have occurred by the lamp exploding. His loss is about \$400, insured for \$350. The flames were carried to the Kaufman brewery near by and the plant, a three story structure built nearly forty years ago, soon was burned to the ground. This building was of wood and everything being dry it burned rapidly. Charles Kaufman succeeded in removing the beer. The building could not be replaced for less than \$2000. Mr. Kaufman's store was saved with great difficulty.

At 1 o'clock this afternoon the alarm was again sounded as the blacksmith shop of W. H. Wolter, on Brown street near the Seukle store, was discovered on fire. One side of the roof was burned off and the balance of the shop saved. This is a bad place for a fire on account of the number of houses near by. The department did prompt work in subduing the flames.

# THE KLONDIKE

AN HONEST HEART.

It Brought a Ray of Sunshine Into the Tiresome Depot.

"An all fired hot day, marm. Goin' fur?" said an old farmer, addressing a lady who sat at his side in a railroad station waiting for a train.

The woman drew away her rich lips impudently, frowning as if to say, "You're out of your place, sir," but she made no audible reply.

"An all fired hot day, I say, marm," said the old man in a louder tone, supposing that she was a little deaf. "Are you goin' fur? Why," he continued, as no reply was vouchsafed, "I'm sorry you're deaf, marm. How long have you been so?"

"Sir," said the woman, rising, "do you mean to insult me? I shall complain to the police." And she swept haughtily from the room.

"Waal, I never!" exclaimed the old man, as he drew out the red bandanna and mopped his forehead. "Pretty tired, marm?" he continued, addressing a woman who had just come in, carrying a baby and a lot of bundles, and with two small children clinging to her dress. "Are you goin' fur?"

"To Boston, sir," was the pleasant reply.

"Got to wait long?"

"Two hours. Oh, children, do be quiet and don't tease mother any more."

"Look here, you young shavers, and see what I've got in my pocket," and soon both children were on his knees eating peppermint candy and listening to wonderful stories about the sheep and calves at home. Next he pulled out a string and taught them how to play "cat's cradle." They were soon on the floor, happy as kittens.

"Now let me take that youngster, marm," he said, noticing that the baby wanted to be tossed all the time. "You look clean beat out. I guess I can please him. I'm a powerful hand with babies." In his big arms the child crowded with delight until he fell asleep.

"Tain't nothin' at all, marm," he said two hours later as he helped the woman and her charges on board.

Buying a pint of peanuts from a little girl and paying 12 cents instead of 10 cents, he munched in hearty enjoyment until his train was called.

"All aboard!" shouted the conductor, and the train started. "Something bright has gone out of this depot that doesn't come in every day," said one who remained—"an honest heart."

### SAVING GRACE OF A HOBBY.

It Revives Hope and Enthusiasm and Makes Life Worth Living.

"A priceless thing is a hobby. The daily tasks by which hosts of women support life are favorless, barren, almost hopeless. To such ones a hobby may offer the dearest hopes of ultimate freedom from the unrelenting daily task. It will at any rate serve to entertain and give point and flavor to an otherwise blank existence," is the position taken by Carrie E. Garrett discussing "Woman's Dreams and Hobbies" in "The Woman's Home Companion."

"Hobbies have the power to concentrate and absorb the scattered energies which might otherwise be expended in purposeless flirtations, building superfluous bonnets, reading cheap sensations, gossiping away precious moments, picking out our friends' foibles, dissecting our own emotions and wishing vaguely for everything which is attainable. If the hobby did nothing else but prevent these frivolities, it would be a boon to humanity."

"Man found out the value of hobbies long ago. Almost every man who is good for anything has a purpose which he thinks is quite the most magnificent one which a man could pursue. It is no matter whether it is lawmaking, pill-making or shoe-making, he pursues it with absorbing enthusiasm and strives to make the best laws or pills or shoes (as the case may be) to be found anywhere."

"Woman has found that it is not enough to merely look pretty; that love cannot be her 'whole existence' (the poet to the contrary notwithstanding), and that even with the richest plenitude of gowns, jewels and enjoyments life still needs a purpose. If it is at all a respectable purpose and pursued with general zeal, it cannot fail to thrive and increase and bear fruit."

### Cuban Brie-a-brac In Vogue.

Curiosities and brie-a-brac from Cuba are now slowly coming into vogue. Oddly enough, they were quite fashionable 40 and 50 years ago. A favorite and one of the most beautiful objects imaginable is a bunch of crystals from one of the famous caverns in the limestone district. Some of these are as clear as rock crystal, and are not alone many faceted but are often covered in part with masses of large and small crystals of great brilliancy. When the faceting occurs in certain patterns, the crystal has the fire of a precious stone and, in a well lighted parlor will throw colored lights and fires in every direction. Still another beautiful object is a mass of fine fern leaf coral, which is found near the keys in the middle and eastern part of the island. Some of this is so delicate that it suggests a petrified cobweb.—Margherita Arina Haman in New York Mail and Express.

### How He Was Floored.

"What's the matter with Holland? I hear he's laid up."

"Yes; he bought his wife a chafing dish a couple of weeks ago."

"But surely that isn't responsible for his illness. Why, that fellow can eat anything!"

"Oh, it wasn't anything that he ate. She hit him over the head with it."—New York World.

It Brought a Ray of Sunshine Into the Tiresome Depot.

"An all fired hot day, marm. Goin' fur?" said an old farmer, addressing a lady who sat at his side in a railroad station waiting for a train.

The woman drew away her rich lips impudently, frowning as if to say, "You're out of your place, sir," but she made no audible reply.

"An all fired hot day, I say, marm," said the old man in a louder tone, supposing that she was a little deaf. "Are you goin' fur? Why," he continued, as no reply was vouchsafed, "I'm sorry you're deaf, marm. How long have you been so?"

TUESDAY, JUNE 14, 1928.

ADMIRAL Dewey pays a splendid tribute to his men in his official report when he says:

"I beg to state to the department that I doubt if any commander-in-chief was ever served by more loyal, efficient and gallant captains than those of the squadron now under my command."

The American people understand too, that such service is given by American, only to commanders who have shown themselves worthy of such loyalty.

DISP. TUBES in this morning's papers indicate that Joseph Leiter, the young wheat king, has met his Waterloo. His course, if this be true, is only another illustration of the folly of speculations in margins. Leiter put up millions of dollars and stood by his side with nerve and when conditions favored, he won. But fascinated as he was with his game he failed to note the changed conditions which the prospect of a large harvest made and he lost as every other great speculator has done who undertook to manipulate the market in the face of opposing natural conditions.

#### RAILROAD RUMBLINGS

J. W. Wickers, of the Santa Fe, was in the city today.

The J. M. & I. pay car came in this morning and the boys are happy.  
The increased earnings of the L. & N. for first week of June are \$57,400.

Wrecking master Samuel Hodapp who has been looking after wrecks for thirty-six hours is laying off today for rest.

#### Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

#### TWO FIRES.

One Last Night and One Today.

At 10 o'clock last night fire was discovered in R. M. Hensley's store on Blish street. The alarm was sounded but before the fire department reached the scene the entire building was in flames and the structure with the contents consisting of a small lot of groceries was soon in ashes. Mr. Hensley says he left his lamp lighted in the building and went down town and on his return home the alarm was sounded. He thinks the fire may have occurred by the lamp exploding. His loss is about \$400, insured for \$350. The flames were carried to the Kaufman brewery near by and the plant, a three story structure built nearly forty years ago, soon was burned to the ground. This building was of wood and everything being dry it burned rapidly. Charles Kaufman succeeded in removing the beer. The building could not be replaced for less than \$2,000. Mr. Kaufman's store was saved with great difficulty.

At 1 o'clock this afternoon the alarm was again sounded as the blacksmith shop of W. H. Wolter, on Brown street near the Seukle store, was discovered on fire. One side of the roof was burned off and the balance of the shop saved. This is a bad place for a fire on account of the number of houses near by. The department did prompt work in subduing the flames.

Rev. E. L. Sanders, of Brownstown, will lecture here next Thursday eve June 16, on "The Saddle-bags."

Miss Delight Miller, of West Brownstown, was the guest of her cousin, Miss Mary Tuell, over Saturday and Sunday.

Clifford Coos who has been attending college at Bloomington came home Thursday. He rode through on his wheel.

Mrs. James Slade and Mrs. Anna Waskom and two children went to Daviess county last week to visit relatives and friends.

The K. of P. decoration will take place at Driftwood next Sunday; also a basket dinner. Rev. Asher, of Medora, will be the speaker.

**Emergency Hospital For K. of P. Encampment.**

**KILLED BY LIGHTNING.**

How a Saloonkeeper Tried to Hoodwink the Temperance People—Detective Mullany's Second Trial For Murder—Professor McComb Goes to Europe—Eleven Hundred Strikers Return to Work.

Indianapolis, June 14.—Dr. E. S. Earp, with a large staff of local physicians, is preparing an emergency hospital system for the Knights of Pythias encampment in August. Along the line of march of the big parade emergency hospital tents will be placed, in charge of competent physicians with a full supply of medicines and other articles necessary for emergency cases. This is a new idea in encampment management. While Indianapolis is a healthy city and it is not expected there will be much use for hospitals, yet every precaution will be taken for the comfort and health of the thousands of strangers who are expected to visit the city. The hospital of the encampment proper will be opposite Camp Colgrove and will be operated under the direction of the surgeon general of the uniform rank, with a detail of surgeons from the various brigades.

**RUSE DIDN'T WORK.**

How Saloonkeeper Was Beat at His Own Game.

Roann, Ind., June 14.—Saloonkeeper Clayton has been refused a license by the Wabash county commissioners. Clayton had his notice of application published in a Lafontaine paper, in a remote part of the county, hoping thus to evade the vigilance of the temperance people. They, however, filed a remonstrance, making one of their allegations that the notice had not been published in a paper of general circulation, and that residents of the township were not legally notified. The commissioners held the point good and rejected the application.

**CHILD KILLED.**

Lightning Strikes Samuel Doner's Home With Fatal Effect.

Indianapolis, June 14.—Dr. E. S. Earp, with a large staff of local physicians, is preparing an emergency hospital system for the Knights of Pythias encampment in August. Along the line of march of the big parade emergency hospital tents will be placed, in charge of competent physicians with a full supply of medicines and other articles necessary for emergency cases. This is a new idea in encampment management. While Indianapolis is a healthy city and it is not expected there will be much use for hospitals, yet every precaution will be taken for the comfort and health of the thousands of strangers who are expected to visit the city. The hospital of the encampment proper will be opposite Camp Colgrove and will be operated under the direction of the surgeon general of the uniform rank, with a detail of surgeons from the various brigades.

## Chronic Dyspepsia Cured.

## THE INVADERS

They Are Now Well on Their Way to the Seat of War In Cuba.

## GUANTANAMO FIGHT

Nothing Official Has Been Received at Washington.

## PHILIPPINE EXPEDITION

Troops Ordered At Sea. The transports at San Francisco reported suffering from an incipient famine—insurgents who watched the bombardment by Sampson say that three hundred Spanish troops were killed—Chickamauga News.

Washington, June 14.—The first army of invasion to Cuba is now well on its way, 32 transport steamships bearing over 15,000 officers and men, conveyed by battleships, cruisers, gunboats and auxiliary craft, 16 in number, have actually sailed from Key West. The authorities made the announcement for reason that the time for secrecy has past, as the scoutboats had made sure that the path was clear before it and that no possible menace could come from the Spanish ships or troops, even should the enemy know that our forces were now advancing against them. With the expedition off, officials here feel that there will be a period of comparative inaction for a few days. By Thursday at the latest the transports will be off Santiago and a large American army will make its landing on Cuban soil.

Aside from the men and officers making up the expedition, the boats carried a vast quantity of supplies, ammunition and war equipments necessary to maintain an organization of this size for at least 60 days.

The landing of these troops will be a laborious process, and will take a full day or more. The point of landing has been so chosen that there is little danger of an interruption from the Spanish forces, but should they attempt to make trouble, Admiral Sampson's ships will insure ample protection until the troops can care for themselves.

The news of the attack by the Spaniards upon the United States marines at Guantanamo bay Saturday night has not been confirmed by official advice. However, there is no disposition to question the accuracy of the press report and the news has had a rather sobering effect upon the element that has insisted upon rushing troops forward regardless of their unpreparedness.

Saturday night's action shows that the Spanish are not afraid to charge boldly upon United States troops and the prospects of a bushwhacking warfare disclosed by the Spanish movements are anything but agreeable to the persons who have been hoping for a short campaign. A good deal of surprise is expressed at the failure of that report to mention any substantial aid received from the insurgents by the United States marines camped on crest hill.

Without any discouragement of the fighting ability of the marines, who appear to have acquitted themselves with the greatest credit so far as concern their bravery and steadiness under fire, the question has been raised whether western soldiers, trained in Indian fighting, would not be of more service in a Cuban jungle campaign. Nothing so severely taxes the courage and endurance of troops as to be shot at from cover by an unseen foe and only troops trained in our latest skirmish drill can render effective service in such attacks.

OFF SANTIAGO.  
Doings of the Ships in Admiral Sampson's Squadron.  
Off Santiago de Cuba, June 8, via Kingston, Jamaica, June 14.—The Yankee and the St. Louis cut the cable at Guantanamo, 60 miles east of Santiago de Cuba yesterday afternoon, and Cuba is thus believed to be finally shut off from communication with the outer world.

The Marblehead fired at a small Spanish gunboat and she returned the fire, the old-fashioned forts joining in the engagement. The gunboat retreated into the harbor and the fort was silenced by the Marblehead. It is not believed the Spanish gunboat was struck, as the range was too great. The Marblehead and the Yankee returned to the blockade at midnight.

The steam launches, which now form a picket line to guard against a torpedo-boat attack, reported yesterday that the Spaniards were apparently attempting to repair the batteries damaged by the bombardment of Monday. Admiral Sampson thereupon said he believed that, if not more, of the enemy's guns had been dismounted.

While the work of arming and feeding the insurgents is pushed vigorously the Spaniards in Santiago are reported suffering from an incipient famine, and a Cuban officer off shore yesterday asserted that the guerrillas were deserting in force to the insurgents.

Yesterday, Lieutenant Commander Delahanty, with the gunboat Swanee, armed 3,000 Cubans with rifles, ammunition and machetes. Today he landed 5,000 rifles, 300,000 rounds of ammunition, a large consignment of machetes, a quantity of medicine and several tons of bread and bacon.

The insurgents say that they watched Monday's bombardment from the hills at the rear of Santiago, that as many as 300 Spaniards were killed and several hundred dismounted. Terrible execution was wrought by the 12-inch shells of the Texas.

If their statement can be relied upon, the Spanish garrison at Santiago is on half rations and the town itself is even much worse off, the military authorities refusing to sell citizens provisions at any price. The insurgents predict that a famine will cause the speedy capitulation of Santiago.

CHICKAMAUGA.  
Regimental and Battalion Drills the Order of the Day.  
Chickamauga National Military Camp, Ga., June 14.—Regimental and battalion drills yesterday were the order of the day. Fourteenth New York was inspected by Inspector Colonel Slocum. The men were found to be in good physical condition and are well equipped with uniforms, but their guns were found to be very defective, and 900 of the supply on hand were condemned as unfit for use in actual service. A requisition for a full supply of new guns has been made.

Captain Rockwell, chief of the ordnance department, expects consignments of arms to begin arriving today and as shipments are to be made now to this point he thinks there will be no further delay and that the troops will be fully equipped within a week or 10 days at the latest.

Privates Sharpe, Sixteenth Pennsylvania; Ames, Third Illinois; and Barrett of the Fourteenth New York, injured by being thrown from the top of a passenger coach, are improving and no serious results are apprehended in consequence of the accident.

GOING ABOARD TRANSPORTS.  
Second Expedition Going to the Aid of Dewey Ordered Aboard Ships.  
San Francisco, June 14.—The most important order issued from army headquarters yesterday was one notifying Major General Otis that the steamers to comprise the second fleet of transports to go to the Philippines was practically ready for the reception of troops. Troops to the number of about 4,000, comprising the Tenth Pennsylvania, the First Colorado, the First Nebraska and two battalions of regulars from the Eighteenth and Twenty-third infantry, a detachment from the engineer corps and the two battalions of Utah light infantry began to load their camps, load their tents and baggage into wagons, don their heavy marching gear and form into columns for the march to the waiting transports.

All day a stream of wagons was conveying camp equipment and baggage to the different steamers and this work was completed today.

STUDEBAKER'S REGIMENT.

First Illinois Merged With the One Hundred and Fifty-seventh Indiana.  
Port Tampa, Fla., June 14.—The deluging tropical storm of last night left the men of Colonel Studebaker's regiment very damp. Excellent precautions taken by the boys in ditching the tents left them in better shape, however, than other camps.

The project of sending officers home to recruit was countermanded and in order to strengthen the brigade to a war footing the First Illinois was merged with this regiment. A squad of men unfit for service is to be sent home in a few days.

Caused a Boom in Tea.  
New York, June 14.—The duty of 10 cents a pound on all imports of tea, under the war revenue bill, has caused a boom in the tea market and prices have advanced very rapidly during the last week. The improvement in some grades has been as much as 7 cents a pound, while the average gain in values has been about 6 cents from the last auction sale, which was held a week ago last Thursday.

Angust Confronts With the German Consul.  
London, June 14.—The Singapore correspondent of The Times says: "Letters received here from Manila, dated May 26, say that the prolonged conferences between the German consul and Captain General Augusti were exciting attention in Manila and had led to the belief that Germany had designs on the Sulu archipelago."

Astor Battery Leaves for the Philippines.  
New York, June 14.—The Astor battery of mountain artillery broke camp yesterday and last night left for San Francisco, enroute to the Philippines.

EXPOSITION BOYCOTT  
Southerners Will Not Go to the Paris Show.  
Louisville, Ky., June 14.—The Paris exposition will fall far as far as patronage from the south is concerned. Not less than 3,000 people had planned to attend it from various southern states and Indiana. Twenty exposition clubs have met and, after passing resolutions condemning France for its hostility to the country in the war with Spain, have disbanded and canceled all arrangements for the trip to Paris.

Will Not Go to Paris.  
New Albany, Ind., June 14.—A proposed trip to the Paris exposition in 1900, which was to have been made by a club of gentlemen, has been abandoned on account of the unfriendly attitude of the French people toward the United States in the present controversy with Spain. The club was organized two years ago.

## RENEWED FIGHTING

Spaniards Make a Second Attack on Huntington's Marines.

## THE DONS HAD TO FLY

When the Marblehead Threw a Few Shells at Them.

## LIEUT. NEVILLE'S PICKETS

Who Had Been Reported Unaccounted For Returned to Camp After Eighteen Hours' Fighting—Colonel Huntington Moves His Camp—Enemy's Hillside Battery Silenced.

United States Camp, Guantanamo, June 12, via Kingston, June 14.—After the 13-hour's skirmish between the United States marines, under Colonel R. W. Huntington, and the Spanish guerrillas and regulars Saturday night, it was expected that the fighting would be renewed. The Marblehead had landed reinforcements. This morning the firing was again renewed by the Spaniards, who appeared off the camp on the edge of a small island, about a mile to the northeast. It was promptly returned by 13 rifles and a 3-inch field gun, and in a short time all signs of the enemy had disappeared. Colonel Huntington then sent to the landing for a second 3-inch gun, which was dragged up the hill and placed in position at the summit. The skirmish lines thrown around the camp kept up a popping all the morning, but with not much result to show for it. Meantime the Marblehead left the harbor and threw a few shells into the woods.

To the great delight of marines in camp, Lieutenants Neville and Shaw, with 30 men of Company D, returned in good shape, but much exhausted by 18 hours of picket duty. One man, Sergeant Smith of Company K, had been shot through the abdomen and instantly killed. For most of the day and night Lieutenants Neville and Shaw had been surrounded by a much superior force, but men and officers behaved splendidly and, although the firing of the Spaniards was constant and heavy, Lieutenant Neville's detachment held its own, inflicting much more damage than it sustained.

At least five Spaniards are known to have been killed and, as Lieutenant Neville's men kept up a steady fire throughout the night and the enemy was not at a great distance, it is believed that the Spanish casualties were heavy. The battleship Texas arrived yesterday morning and sent ashore 40 marines and two automatic Colt guns as reinforcements.

The Marblehead also sent an additional small detachment. Private Bartholomew McGowan of Company D will lose his hand, which was shattered by a bullet. Amputation will be necessary. The Marblehead's pilot, who was shot through the leg while guiding the cruiser out of the harbor this morning, holds the rank of colonel in the Cuban service.

Later the Spaniards opened fire from two guns placed on the west side of the harbor. The shots flew wild. The Texas, Yankee and torpedo-boat Porter, which were lying in the harbor, opened fire, and in a short time silenced the Spanish guns. The latter fired only once after the ships opened fire. There were no casualties on the American side.

It was decided by Colonel Huntington today to abandon the position first occupied as a camp, as there were no signs of reinforcements of troops, and it was known that a force of Spaniards six times more numerous than the marine battalion was in the vicinity. Therefore, the crest of the hill which the troops held last night was given up to batteries and rifle pits and the tents were pitched on the side of the hill near the harbor, which is protected by the warships.

DAYS NUMBERED.  
Sagasta Government Will Soon Cease to Exist.  
London, June 14.—The Paris correspondent of The Morning Post says: "I learn from a trustworthy source that the days of the Sagasta cabinet are numbered. It is believed the cabinet is aware the torpedo-boat destroyer Terror has been lost, and despite denials, it is rumored that there is further bad news from Cuba. Senor Silveira, leader of the dissident Conservatives, is regarded as the coming man. The Carlists are enrolling adherents and startling developments are expected."

Major General Keifer.  
Washington, June 14.—Secretary Alger has decided to assign Major General J. Warren Keifer of Ohio to a command with Major General Lee of the Seventh corps. The latter is now stationed at Jacksonville.

Dewey's Ships Gone to Meet Them.  
London, June 14.—According to a dispatch from Madrid to The Financial News, three Spanish ironclads from Madagascar waters have arrived in sight of Manila, and Admiral Dewey's ships have gone to meet them.

### LEITER'S FALL.

#### Young Napoleon of Chicago Market Meets With Reverses.

Chicago, June 14.—Excitement and wild rumors prevailed in the Chicago wheat pit yesterday. A reverse that looks like a Waterloo has come to the "Young Napoleon of Finance," Joseph Leiter.

At first there was a wild tumble of prices on the board, July wheat selling at 11 cents from Saturday's close while September lost 4c and December 3c, but all made a little recovery before the close.

It was given out that Leiter had ordered his deals all closed and that the selling rush was the result of the execution of this order, accompanied as it was, by a flood of rumors concerning the stability of the big bull movement, which for months has been the important factor in board of trade dealings. One of these rumors was that Leiter had been deserted by some of his associates in the campaign.

In the meantime Leiter's wheat was being tumbled overboard and prices had become demoralized. Later in the day Leiter made no attempt to conceal the fact that he had sold out all his holdings in futures—probably 6,000,000 or 8,000,000 bushels here. It came out that he had transferred most of his trades in futures to other well known houses and that they were pretty well protected by margins, so that whatever losses there were would fall upon Leiter. His cash wheat, one report said, was transferred to Armour, but a later story was that it would be "traded" and handled in such a way as to prevent the slump which would be inevitable if it were all thrown on the market at once. Before the final close the panic partially subsided and July reacted 4 cents.

It is estimated that during the day 8,000,000 to 10,000,000 bushels of Leiter wheat, optional and visible, were sold to the account of the "Young Napoleon." This is supposed to have consisted chiefly of options in September, July and June wheat, stored in Minneapolis, St. Paul, Duluth and Chicago.

Later it was reported that L. Z. Leiter, when asked by his son for more money, had refused to be drawn further to the wheat deal, and thus compelled the latter to let go a large line of his holdings in order to satisfy his warehouse creditors.

Mr. Leiter's friends insist that he has not made an admission, but it was admitted last night that the Leiter interests had been "traded."

None of the principals in the Leiter crisis are willing to discuss the causes which led to his abdication, and the most plausible explanation that can be offered at this time is, therefore, circumstantial and speculative.

### SECOND DEGREE

#### Two of a Gang of Nine Thieving Tramps Indicted For Murder.

Tiffin, O., June 14.—Fred Burns, the tramp, who shot Bruce Johnson, another tramp, last week, has been indicted by the grand jury for murder in the second degree. Developments in the case show that a gang of nine tramps have been committing various crimes over the country. A 17-year-old boy "peached" on them, and the same young man stated to an officer that the plans had been laid by the men to break into a Tiffin bank and rob a wealthy widow in this city. Dynasite is said to be secreted near the place where the party was arrested, and efforts are being made to locate it.

### KANSAS LYNCHING

#### Great Bend, Kan., June 14.—In the public square, fronting on the principal business street of this place, a murderer was lynched last evening by a mob of probably 500 persons. It is estimated that at least 1,000 men of Great Bend's population of 2,500 persons witnessed the tragedy. The victim was John Becker, about 40 years old, who on April 8 killed Myrtle Huffmeister, the 16-year-old daughter of William Huffmeister, a farmer living midway between Great Bend and Ellinwood, who had rejected his profession of love.

### LOST NO MONEY

State Treasurer Campbell Denies a Report Sent Out From Washington.

Columbus, O., June 11.—State Treasurer S. B. Campbell has returned from his paying off trip among the Ohio regiments. He pronounces as absolutely false the statement sent out from Washington to the effect that he lost \$456 in paying off at Camp Alger by giving somebody a \$500 package of bills for a \$50 package. He says he is short nothing and that such a mistake could not have been made by him, because he paid by checks to company commanders and handled no money.

ADMIRAL Dewey pays a splendid tribute to his men in his official report when he says:

"I beg to state to the department that I doubt if any commander-in-chief was ever served by more loyal, efficient and gallant captains than those of the squadron now under my command."

The American people understand too, that such service is given by American, only to commanders who have shown themselves worthy of such loyalty.

DISPATCHES in this morning's papers indicate that Joseph Leiter, the young wheat king, has met his Waterloo. His course, if this be true, is only at other illustration of the folly of speculations in margins. Leiter put up millions of dollars and stood by his deal with nerve and when conditions favored he won. But fascinated as he was with his game he failed to note the changed conditions which the prospect of a large harvest made and he lost as every other great speculator has done who undertook to manipulate the market in the face of opposing natural conditions.

### Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Props., Toledo, O.

### TWO FIRES.

One Last Night and One Today.

At 10 o'clock last night fire was discovered in R. M. Hensley's store on Blish street. The alarm was sounded but before the fire department reached the scene the entire building was in flames and the structure with the contents consisting of a small lot of groceries was soon in ashes. Mr. Hensley says he left his lamp lighted in the building and went down town and on his return home the alarm was sounded. He thinks the fire may have occurred by the lamp exploding. His loss is about \$400, insured for \$350. The flames were carried to the Kaufman brewery near by and the plant, a three story structure built nearly forty years ago, soon was burned to the ground. This building was of wood and everything being dry it burned rapidly. Charles Kauffman succeeded in removing the beer. The building could not be replaced for less than \$2,000. Mr. Kauffman's store was saved with great difficulty.

At 1 o'clock this afternoon the alarm was again sounded as the blacksmith shop of W. H. Wolter, on Brown street near the Seukle store, was discovered on fire. One side of the roof was burned off and the balance of the shop saved. This is a bad place for a fire on account of the number of houses near by. The department did prompt work in subduing the flames.

## THE KLONDIKE

AN HONEST HEART.

It Brought a Ray of Sunshine Into the Tiresome Depot.

"An all fired hot day, marm. Goin' fur?" said an old farmer, addressing a lady who sat at his side in a railroad station waiting for a train.

The woman drew away her rich silks impatiently, frowning as if to say, "You're out of your place, sir," but she made no audible reply.

"An all fired hot day, I say, marm," said the old man in a louder tone, supposing that she was a little deaf. "Are you goin' fur? Why," he continued, as no reply was vouchsafed, "I'm sorry you're deaf, marm. How long have you been so?"

"Sir," said the woman, rising, "do you mean to insult me? I shall complain to the police." And she swept haughtily from the room.

"Waal, I never!" exclaimed the old man, as he drew out the red bandanna and mopped his forehead. "Pretty tired, marm?" he continued, addressing a woman who had just come in, carrying a baby and a lot of bundles, and with two small children clinging to her dress. "Are you goin' fur?"

"To Boston, sir," was the pleasant reply.

"Got to wait long?"

"Two hours. Oh, children, do be quiet and don't tease mother any more."

"Look here, you young shavers, and see what I've got in my pocket," and soon both children were on his knees eating peppermint candy and listening to wonderful stories about the sheep and calves at home. Next he pulled out a string and taught them how to play "cat's cradle." They were soon on the floor, happy as kittens.

"Now let me take that youngster, marm," he said, noticing that the baby wanted to be tossed all the time. "You look clean beat out. I guess I can please him. I'm a powerful hand with babies." In his big arms the child crowded with delight until he fell asleep.

"Tain't nothin' at all, marm," he said two hours later as he helped the woman and her charges on board.

Buying a pint of peanuts from a little girl and paying 12 cents instead of 10 cents, he munched in hearty enjoyment until his train was called.

"All aboard!" shouted the conductor, and the train started. "Something bright has gone out of this depot that doesn't come in every day," said one who remained—"an honest heart."

SAVING GRACE OF A HOBBY.

It Revives Hope and Enthusiasm and Makes Life Worth Living.

"A priceless thing is a hobby. The daily tasks by which hosts of women support life are forever, barren, almost hopeless. To such ones a hobby offers the dearest hopes of ultimate freedom from the unwelcome daily task. It will at any rate serve to entertain and give point and flavor to an otherwise blank existence."

"Woman's Dreams and Hobbies" in The Woman's Home Companion.

"Hobbies have the power to concentrate and absorb the scattered energies which might otherwise be expended in purposeless flirtations, building up fumes, bonnets, reading cheap sensations, gossiping away precious moments, picking out our friends' foibles, dissecting our own emotions and wishing vaguely for everything which is attainable. If the hobby did nothing else but prevent these frivolities, it would be a boon to humanity."

"Man found out the value of hobbies long ago. Almost every man who is good for anything has a purpose which he thinks is quite the most magnificent one which a man could pursue. It is no matter whether it is lawmaking, pill-making or shoemaking, he pursues it with absorbing enthusiasm and strives to make the best laws or pills or shoes (as the case may be) to be found anywhere."

"Woman has found that that is not enough to merely look pretty; that love cannot be her 'whole existence' (the poet to the contrary notwithstanding), and that even with the richest plenitude of gowns, jewels and enjoyments life still needs a purpose. If it is at all a respectable purpose and pursued with general zeal, it cannot fail to thrive and increase and bear fruit."

Cuban Brice-brace In Vogue.

Curiosities and brice-brace from Cuba are now slowly coming into vogue. Oddly enough, they were quite fashionable 40 and 50 years ago. A favorite and one of the most beautiful objects imaginable is a bunch of crystals from one of the famous caverns in the limestone district. Some of these are as clear as rock crystal, and are not alone many faceted but are often covered in part with masses of large and small crystals of great brilliancy. When the faceting occurs in certain patterns, the crystal has the fire of a precious stone and, in a well lighted parlor will throw colored lights and fires in every direction. Still another beautiful object is a mass of fine fern leaf coral, which is found near the keys in the middle and eastern part of the island. Some of this is so delicate that it suggests a petrified cobweb.

Good Citizens' League.

The league met at the M. E. church last night for its regular monthly meeting. An interesting address was made by S. H. Huffman. A committee was appointed consisting of Senator Louis Schneck, F. H. Hadley and J. L. Kessler to make nominations for the executive committee of the league. An adjournment was then made until next Monday evening at 7:30 at the M. E. church.

I was seriously afflicted with a cough or several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous.

Mr. P. Ketchum of Pike City, Cal. says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others testified to the prompt relief from pain which this liniment affords. For sale by C. W. Milhous.

Give the Children a Drink

Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared, it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about as much as coffee. 15 and 25c.

## NO WAR NEWS.

INDICATIONS THAT THE LAST CABLE HAS FINALLY BEEN CUT.

Spain Prefers to Surrender Manila to the United States Rather Than to the Insurgents.

PORT AU PRINCE, Hayti, June 14.—No war news has been received here up to this hour today from Santiago de Cuba or elsewhere. This seems to confirm the belief that the last cable has been cut and Cuba shut off from the rest of the world.

WASHINGTON, June 14.—The navy department today posted the following bulletin:

'MOLE, ST. NICHOLAS, June 13.—Lieut. Blue has just returned after a detour of seventy miles of observation of the harbor of Santiago de Cuba. He reports the Spanish fleet is all there. The Spanish attacked vigorously the camp at Guantanamo. An outpost of four marines were killed and their bodies mutilated barbarously. Surgeon Gibbs was killed. SAMPSON.'

LONDON, June 14.—It is said that Spain has requested the Powers to urge the United States to occupy Manila, should the town surrender, and not allow the insurgents to do so.

LONDON, June 14.—Work from Paris. The days of the Sagasta Cabinet are numbered. It is believed the Cabinet is aware the torpedo-boat destroyer Terror has been lost, and despite denial, it is rumored that there is further bad news from Cuba.

## SOCIAL DEMOCRACY.

It Has Found Its Lost Platform and Gives It Publication.

Chicago, June 14.—The main body of the Social Democracy of America has given up its platform formulated during the convention last week. It is claimed that the manuscript of the platform was in the possession of one of the Debs bolters and has just been returned. It demands both political and economic action for the accomplishment of this purpose: The collective ownership and administration of all the means of production and distribution. The platform also specifically demands the abolition of all inferior federal courts and the abrogation of the power of the federal supreme court to reverse the decisions of state tribunals. The concluding plank is a declaration in favor of direct legislation.

Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed sold at W. F. Peter's drug store. 50 cents per bottle.

## TO CARE FOR SICK

Emergency Hospital For K. of P. Encampment.

## KILLED BY LIGHTNING.

How a Saloonkeeper Tried to Hoodwink the Temperance People—Detective Mullaney's Second Trial For Murder—Professor McComb Goes to Europe—Eleven Hundred Strikers Return to Work.

Indianapolis, June 14.—Dr. E. S. Earp, with a large staff of local physicians, is preparing an emergency hospital system for the Knights of Pythias encampment in August. Along the line of march of the big parade emergency hospital tents will be placed, in charge of competent physicians with a full supply of medicines and other articles necessary for emergency cases. This is a new idea in encampment management. While Indianapolis is a healthy city and it is not expected there will be much use for hospitals, yet every precaution will be taken for the comfort and health of the thousands of strangers who are expected to visit the city. The hospital of the encampment proper will be opposite Camp Colgrove and will be operated under the direction of the surgeon general of the uniform rank, with a detail of surgeons from the various brigades.

## RUSE DIDN'T WORK.

How Saloonkeeper Was Beat at His Own Game.

Roann, Ind., June 14.—Saloonkeeper Clayton has been refused a license by the Wabash county commissioners. Clayton had his notice of application published in a Lafontaine paper, in a remote part of the county, hoping thus to evade the vigilance of the temperance people. They, however, filed a remonstrance, making one of their allegations that the notice had not been published in a paper of general circulation, and that residents of the township were not legally notified. The commissioners held the point good and rejected the application.

## CHILD KILLED.

Lightning Strikes Samuel Doner's Home With Fatal Effect.

Somerset, Ind., June 14.—The farmhouse of Samuel Doner, two miles from here, was struck by lightning and badly wrecked. One 5-year-old child was instantly killed by the shock, and a younger child was so injured that its recovery is doubtful. Mr. and Mrs. Doner were stunned.
